Aesthetic Crown
Lengthening

20th April 2024

London

About the Course

This hands-on masterclass is designed to provide general dental practitioners with the knowledge and confidence to identify cases in practice that would benefit from crown lengthening procedures and achieve reliable results.

Our unique masterclass will also introduce you to our step by step protocol followed by Specialist Periodontists.

Course Objectives

- Understanding Biologic Width
- Classification of Altered Passive Eruption
- Case selection and pre-assessment
- Crown lengthening implementation in Bonding and Orthodontic cases
- Surgical guide and 3D stent design
- Management of surgical complications

Date and Location

20th April 2024

8.30am – 5pm

TOWER SUITES BY BLUE ORCHID

100 Minories

London

EC3N 1JY
